

AP Spanish Suggested Summer Reading

In order to continue practicing Spanish during the summer, it is recommended that students read *Cajas de Cartón* by Francisco Jiménez. This book is available in Spanish on amazon.com or barnesandnoble.com. It may also be available at Barnes and Noble in Middletown in the Spanish language section.

It is suggested that students keep a journal (in Spanish) of each chapter, including a ½ to 1 page summary of events and a paragraph of personal reflections and opinions. The journal should be hand-written. This information will be the foundation for class discussion, a reading comprehension assessment, an essay, and an oral presentation in September.
